EARLY ORDER

2018 Plow & Wing Shoes to MDOT's, Counties, Villages and Cities

Pricing available until July 10, 2018.

Hardened shoes are manufactured with class 40 gray iron, modified with chrome to increase strength and wear life. The wing shoes are designed to be used with either a flat square edge or reverse curve blades. Brinell hardness is 235-245. We also have an advanced-updated wing shoe that has been available and used successfully. The ni-hard is manufactured with the same shape but with white iron which increase the wear life. After testing, with a few counties, it has been found to have extended the life by 50-100%.

ORDER QUANTITY 1-49	ORDER QUANTITY 50+
