

The Pneu-Logic Control System

TRUCK & TRAILER
Specialties, Inc.

The Economic Alternative to Electronic Proportional Control

Our new 8-button handset provides clear LED signals, pass-and-blast, safety trigger and features two additional programmable buttons

The control system provides a comfortable joystick and armrest

Center arm rest opens to reveal a storage area and writing surface

The cost-effective **Pneu-Logic Control System** offers the superior reliability of pneumatic controls in an operator-friendly design. Quality engineering allows easy maintenance and durability for the lifetime of the system.

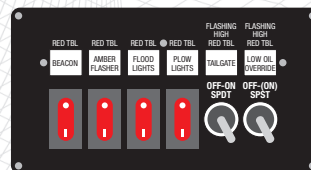

Featuring:

- Assignable functions
- Fully proportional operation
- Safety trigger
- LED indicated functions

Heads-up display available

Digital and analog switch packs available
